

Contents

1. Packhouse Overview

- Production and Picking
- Packhouse Process Flow
 - Receiving and Initial Processing
 - Treatments and Separation
 - Packing
 - Inspection and Transport
 - General Operations
- Citrus Industry Extension Services

2. Packhouse Infrastructure and Planning

- Introduction
- Packhouse Infrastructure
 - Land
 - Access Roads
 - Water Supply
 - Electricity Supply
 - Connectivity
- Packhouse Planning
 - Laws and Regulations
 - Fire Prevention
 - Packhouse Planning Principles
 - Packhouse Production Capacity
 - Packhouse Site Layout
 - Packhouse Production Area
- Packhouse Employment
- Packhouse Automation
- Conclusion

3. Packhouse Sanitation

- Introduction
- Spores and Fruit Infections
- Pre-Sorting
- Removal of Fruit
- Equipment and Workspace Sanitation
 - Sanitising Agents
 - Cleaning and Sanitising Methods
 - Scheduling
- Other Cleaning and Sanitising Procedures
- Emergency Cleaning Procedures
- Microbiological Laboratory Testing
- Personal Hygiene
- Recordkeeping

4. Receiving and Initial Processes

- Introduction
- Receiving
- Weighing
- Packhouse Delivery Inspection
- Drench

- De-greening
- Pre-Sorting
- Fruit Washing
 - Sanitisers
 - Tip Systems
- Conclusion

5. Fruit Treatments

- Introduction
- Fungicide Treatment
 - Fungicides
 - Fungicide Treatment Systems
 - Fungicide Titration and pH Measurement
- Wax Treatment
- Fungicide Resistance
- Conclusion

6. Sorting and Grading

- Introduction
- Fruit Quality Factors
- External Fruit Quality Factors
- Internal Fruit Quality Factors
- Export Standards
 - Sorting
 - Sorting Stations
 - Sorters
 - Sorting Tables
 - Sorting Practices
- Grading
- Sizing
- Conclusion

7. Packing Practices

- Introduction
- Packing Material
- Packing Cartons
 - Bulk Bins
 - Fruit Labels (PLUs)
 - Fruit Wrappers
 - Pallets
 - Securing Sheets
 - Pallet Caps
 - Corner Pieces
- Packing Material Specifications
- Packing Instructions
- Fruit Labelling
- Packing Practices
 - Preparation
 - Packing Diagrams
 - Place Packing
 - Jumble Packing
 - Weighing Cartons
- Automated Packing Machines
 - Automated Place Packing
 - Automated Jumble Packing

Palletisation
High Cube vs. Standard Pallets
Pallet Stacking Patterns
Palletising Stations
Pallet Stacking Practices
Securing Pallets

Marking
Conclusion

8. Quality Management

Introduction
Packhouse Accreditation
Fruit Intake Assessment
Internal Quality Assurance System
Quality Supervision
Quality Control Points
Retention Samples
PPECB Inspections
Conclusion

9. Logistics

Introduction
The Citrus Growers' Association of Southern Africa
Shipping Methods
The Logistics Chain
The Cold Chain
Road Transport
Cold Stores
Port Services
Shipping
Logistics Documentation
Conclusion
