

# Contents

## 1. Introduction to Planting Management

- Introduction
- Citrus Cultivars and Rootstocks
- Orchard Layout and Planning
- Orchard Establishment
- Orchard Recordkeeping
- Conclusion

## 2. Citrus Types and Cultivars

- Introduction
- Terminology
- Citrus Cultivars
  - Sweet Oranges
  - Navel Oranges
  - Valencia Oranges
  - Soft Citrus
    - Satsumas
    - Clementine
    - Mandarin
  - Lemons and Limes
  - Grapefruit
    - Star Ruby
    - Marsh
    - Rosé
    - Shaddock
- Citrus Rootstocks
- Safe Plant Material
- Conclusion

## 3. Orchard Layout and Planning

- Introduction
- Map
- Natural Resources and Characteristics
  - Soil
  - Water Sources
  - Climate
  - Topography
  - Erosion
- Infrastructure
- Orchard Layout and Orientation
- Conclusion

## 4. Orchard Establishment

- Introduction
- Tools and Equipment
  - Measuring Tools
  - Planting Tools
- Soil Preparation
- Windbreaks
- Irrigation Pipes
- Plant Material

Planting Conditions  
    Weather Conditions  
    Soil Conditions  
Planting Procedure  
Young Tree Care  
Conclusion

**5. Orchard Recordkeeping**

Introduction  
The Importance of Recordkeeping  
Tree Census Records  
Other Records  
Conclusion
